SIBU DESIGN KEY FACTS:

1984 Foundation of the SIRO-BURG DESIGN company by Karl Burgholzer, Josef Sikora & Gerhard Sikora | 2001 Company renamed as SIBU DESIGN | 55 employees | Area: 6,300 m² (offices / production / warehousing) 2,300 m² high-bay warehouse (therefore short delivery times for even small orders) | Branch experience (deliveries) in over 80 countries (e.g.: Australia, Russia, China, India, United Arab Emirates, Spain, France, Italy, UK, Turkey, Poland, South Africa, Egypt, Tunisia, Mexico, Columbia, Chile, USA,...) | International know-how and trend awareness through globally respected customers such as AUDI, RED BULL, SWAROVSKI, ZARA and LOUIS VUITTON | Own DESIGN research (quality haptics, genuine appearance and 100% PVC-free)

30 years of branch experience in the areas of architecture, the hotel industry, gastronomy, fashion, trade fairs, shop fittings and design, etc. Our team gathers its inspiration from sport, fashion, furniture and architecture, pinpoints trends and produces individual design concepts that are both precise and innovative. WE ARE DIFFERENT FROM THE REST!

DECO-LINE

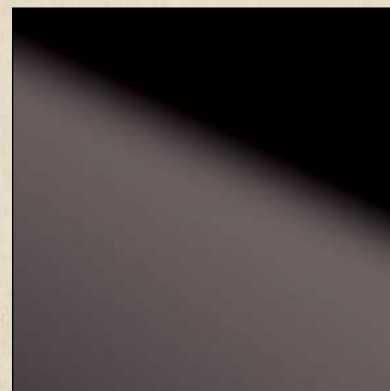

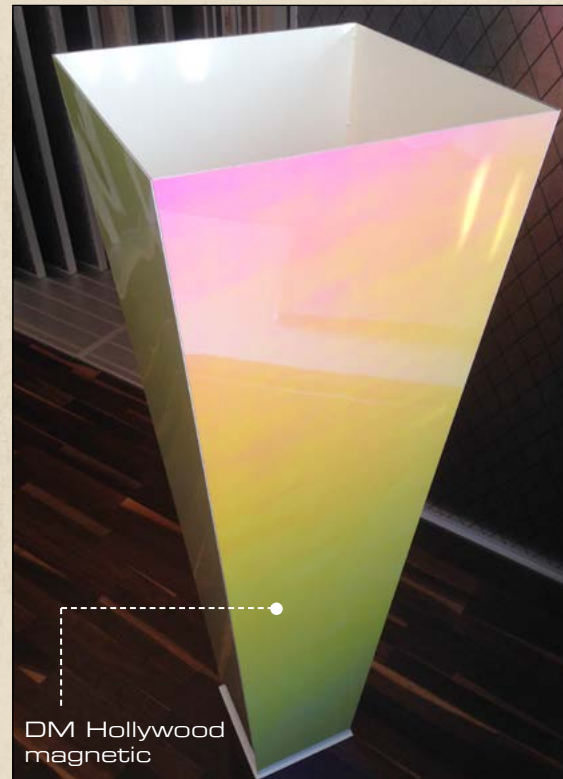

HIGHLIGHT'S

The DECO-LINE delivery programme includes brilliant mirror and metallic top surfaces, as well as modish metal and wood structures.

Irrespective of whether they are used for display, printing, furniture, trade fair or shop fitting purposes, DECO-LINE products represent a non plus ultra.

In addition, a DECO-LINE programme is also available with abrasion-resistant surfaces.

- Mirror, metal and wood looks
- Fashionable designs and colours
- Problem-free printing
- Many products supplied in a flame-retardant variation
- Also available in magnetic versions

MULTISTYLE

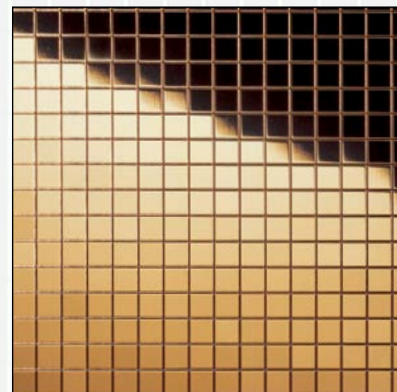

HIGHLIGHT'S

The MultiStyle delivery programme contains mirror and metallic top surfaces with a stylish mosaic appearance.

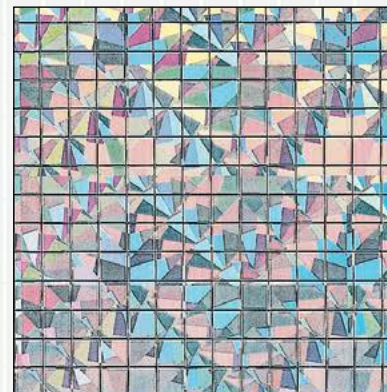

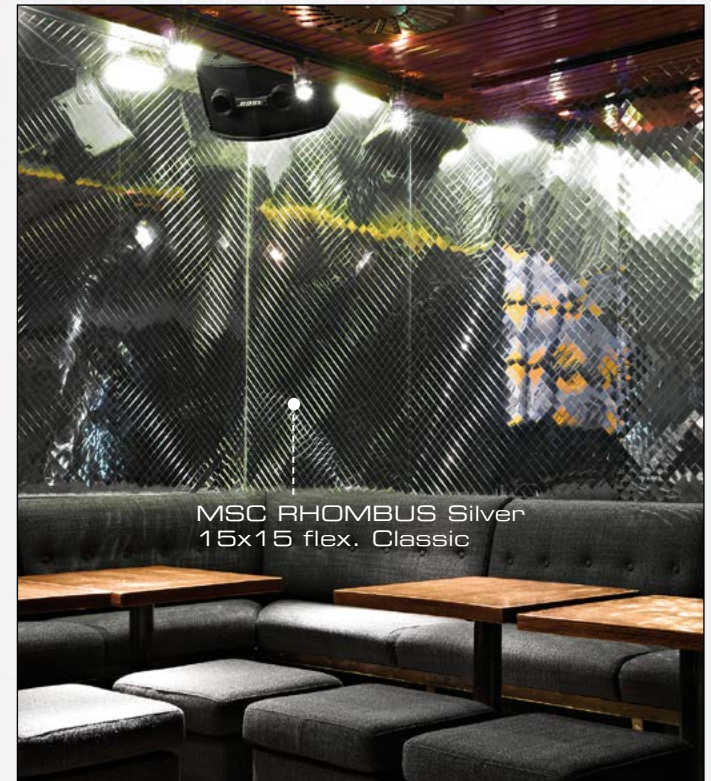

MultiStyle products are characterised by their extreme flexibility. They can therefore be used in a highly individual manner and even curved surfaces are no problem.

MultiStyle is a must in the display and decoration area!

- Flexible mirror mosaic
- Fashionable designs and colours
- Problem-free digital printing
- An absolute eye-catcher
- Ideal for rounded surfaces
- Available in magnetic versions
- Can also be supplied in a 2,600 x 1,000mm format!

ACRYLIC- LINE

SIBU
DESIGN

ACRYLIC-LINE

HIGHLIGHT'S

The SIBU ACRYLIC-LINE incorporates structured, high gloss surfaces in top quality ABS/PMMA material and turns furniture into a genuine eye-catcher.

In addition, the homogenous acrylic material not only stands out due to its shining appearance, but also its excellent processing characteristics and abrasion resistance. Moreover, should the robust top surface be damaged at any time, it can be easily re-burnished.

- High-gloss appearance
- Structures ABS/PMMA
- Extremely abrasion-resistant
- Suitable for bonding with PVA
- Ideal for furniture fronts
- Also available in a 2,690 x 1,220mm format

AC MOTION TWO Creme

AC TOUCH Black

STRUCTURE LINE

SIBU
DESIGN

STRUCTURE-LINE

HIGHLIGHT'S

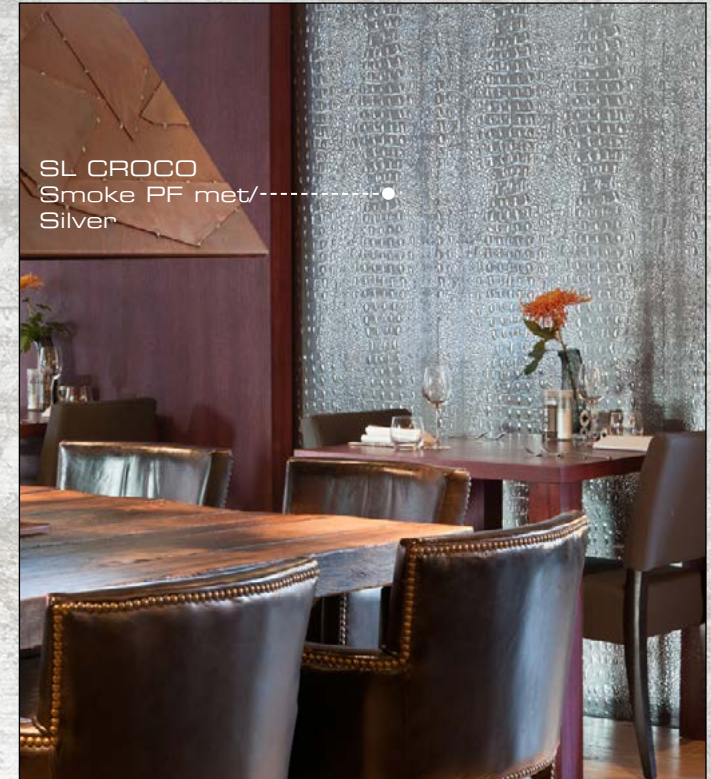

SIBU STRUCTURE-LINE is perfect for those looking for a structured scene-stealer.

Three-dimensionality combined with fashionable colour combinations lends the STRUCTURE-LINE range an unmistakeable appearance. And irrespective of whether a concrete, vintage, reptilian, metallic or wood surface look is wanted, the perfect product is available for every taste.

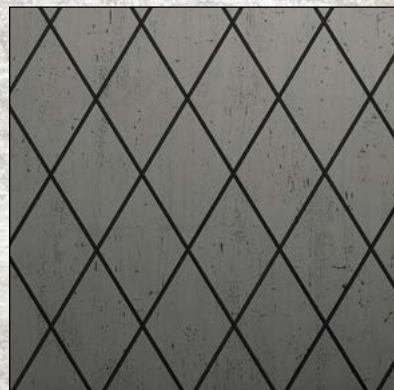

- Designs with a structure
- Vintage look
- Reptilian look
- Metallic look
- Available in abrasion-resistant variations
- Can be supplied in magnetic versions

SIBUGLAS PROCESSING

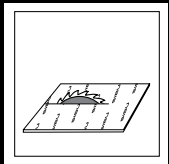

Cutting

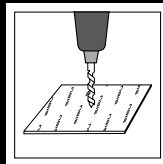

Milling

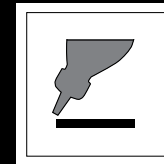

Laser cutting

Sawing

Drilling

Bonding

PVA pre-application

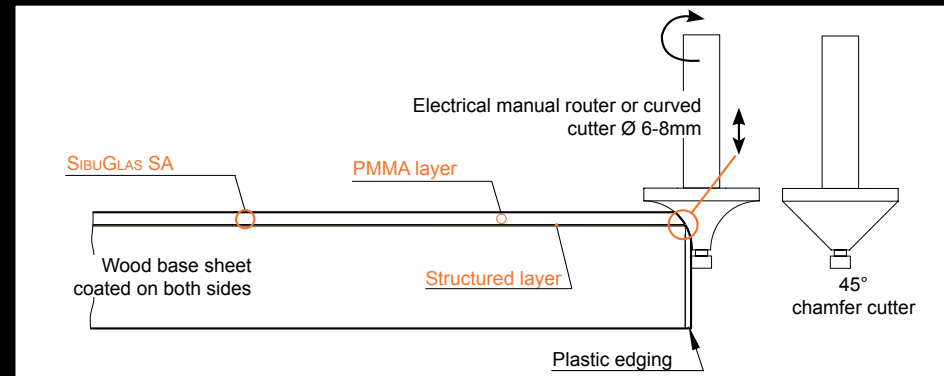

SIBUGLAS PROCESSING

- Working with self-adhesive SIBUGLAS
- Bonding SIBUGLAS
- SIBUGLAS in wet rooms

SIBUGLAS

self-adhesive on wood base sheets

- Remove the protective film and bond the sheet onto the wood base sheet (rubber roller).
No counter-pressure required.
- Cut to the required dimensions and apply the edging.
- Using an electrical manual router, mill a rounded edge exactly up to the point of transition from the transparent PMMA layer to the structured layer.

SIBUGLAS

bonding

SIBUGLAS DESCRIPTION - STRUCTURE

SIBUGLAS structured sheet

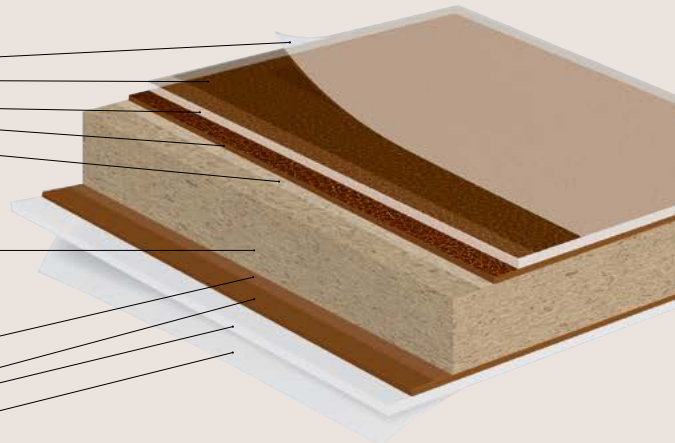

- PE protective film
- Scratch-resistant surface, only in the **AR+** version
- Transparent PMMA layer, UV-resistant
- PU leather / structured layer, special synthetic fibres
- PVA white glue

Wood base sheet

16mm minimum thickness!

SIBUGLAS balancing sheet

- PVA white glue
- PU leather/single colour, special synthetic fibres
- PMMA sheet
- PE protective film

Glued and pressed SIBUGLAS sheets can be easily processed with the majority of woodworking machinery and tools with good results. The PE protective film must be left on the top surface during processing. The use of suitable tools that offer clean cutting prevents damage. Optimum machine parameters, tool layout and cutting speeds are to be determined individually prior to production on the basis of a sample.

Further details are contained in the SIBUGLAS
information brochure.

Download under: www.sibu.at/download

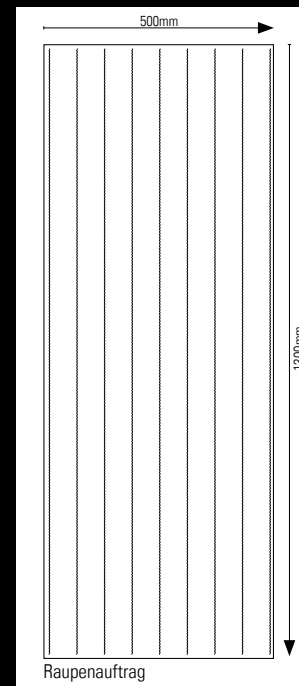

SIBU
DESIGN

SIBUGLAS

in wet rooms

- Disassemble the sanitary devices
- Thoroughly clean and degrease the ground
- Measure the required sheet dimensions on the spot (take into account a 3mm expansion gap)
- Saw the SIBUGLAS sheet to the required dimensions
- Apply a vertical silicone bead (1cm from the edge, 6cm distance)
- Allow to air for 24 hours prior to grouting.
- Sealing with SIBU silicone! (Make sure to seal the entire exposed edge. Central joint: flush with the surface, outer edge: chamfer)

SIBU SILICON 1.4A
is available in:

For colour recommendations please see the SIBU SILICONE 1.4A news update

SIBU
DESIGN

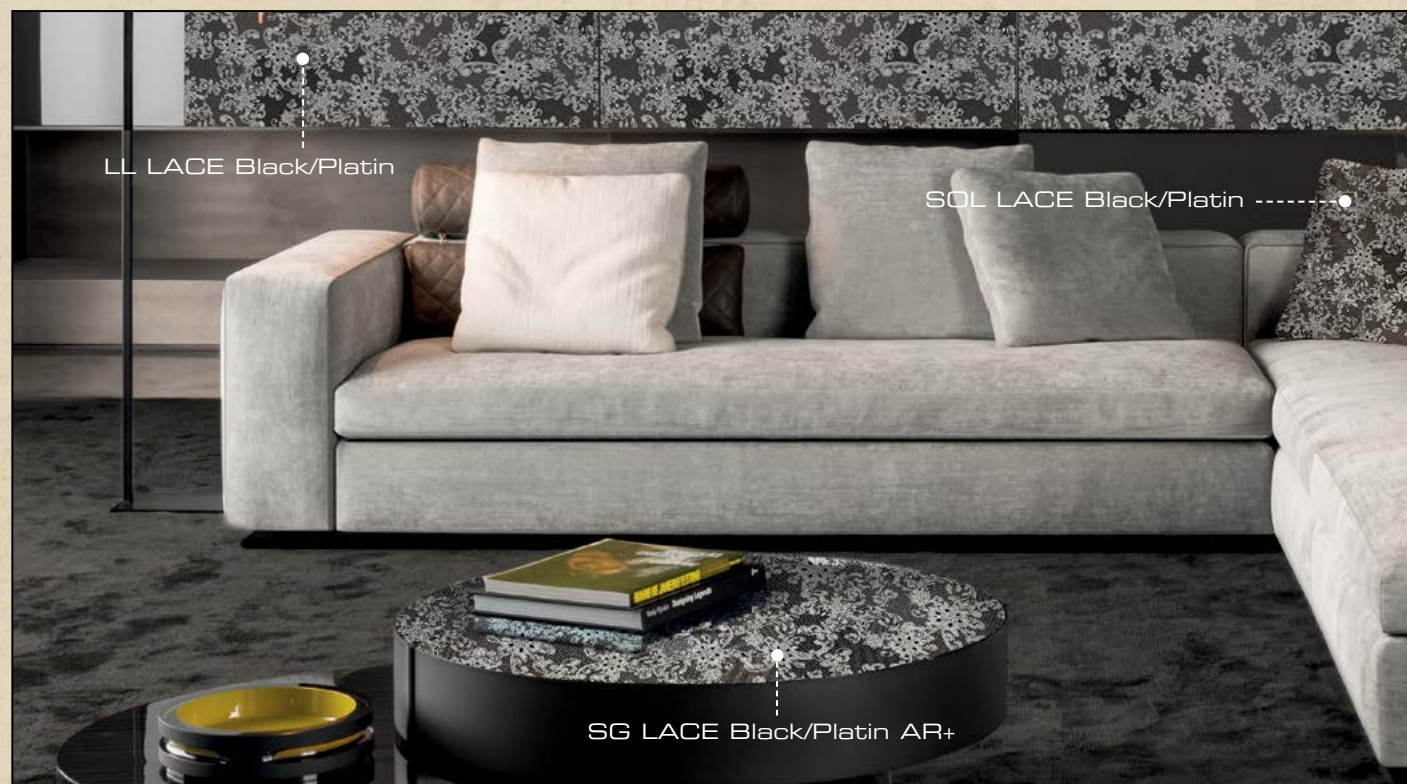

HIGHLIGHTS

SIBU's 3-in-1 styling concept combines three differing materials in one design and thus offers new and multifaceted styling variations with a consistent look. Indeed, all good things such as SIBUGLAS, SOFT-LEATHER and STRUCTURE-LINE come in threes!

In tandem with stylish reptilian and metallic vintage design, SIBUGLAS stands out with a scratch-resistant top surface, brilliant sheen and a previously unattained depth effect.

These designs are now available in PVC-free SOFTLEATHER sheets. These are elastic, soft, possess first class haptics and are ideal as a covering.

The design of SIBU's new 3-in-1 styling concept is lent a finishing touch by a classic, relief-like STRUCTURE-LINE surface. This opens up previously unobtainable design possibilities with the elegant look of a consistent design language.
